PROFILE

As a 2nd-year B.Tech student specializing in Computer Science Engineering (Internet of Things and Cyber Security including Blockchain Technology), I bring a keen interest in web development and a solid foundation in HTML, CSS, JavaScript, and web frameworks. My commitment to staying updated with technology trends and my ability to collaborate effectively make me a promising candidate for innovative tech projects. I look forward to applying my skills and enthusiasm to contribute meaningfully to the ever-evolving tech landscape."

Internship Trainee, Teachnook Bengaluru, Karnataka
Mar 2023 — May 2023

As an Internship Trainee at Teachnook, I had the opportunity to develop a Weather Webapp from scratch using HTML, CSS, and JavaScript. This project not only honed my front-end development skills but also demonstrated my ability to create user-friendly and dynamic web applications. It was a valuable experience that enhanced my proficiency in web development and problem-solving."

Web Developer Intern, Oasis Infobyte

Web Developer Intern, Bharat Intern

Bhopal, Madhya Pradesh

Aug 2023 — Present

As a Web Developer Intern at Bharat Intern, I designed and developed two notable projects using HTML, CSS, and JavaScript—a temperature converter and a Netflix-inspired web app. These practical experiences enriched my front-end development skills, bolstered my proficiency in web technologies, and demonstrated my ability to create user-friendly and engaging web applications. My internship at Bharat Intern was instrumental in expanding my web development capabilities and problem-solving acumen.
